

Variables	Description
case	The causal structure in the dgp
model	The type of estimated model
sample_size	The sample size
lag_amount	The lag length of the exogenous to endogeneous effect in the dgp
b1	The coefficient relating x to y in the estimated models
se	The standard error on b1 in the estimated models
p_value	The p value on b1 in the estimated models

Table 1: Variable Descriptions

Name	Description
wo_partial	A model where y is regressed on x
partial	A model where y is regressed on x and prior y

Table 2: Note on Models
